

Teenage girls discover Sea Pearls

Young girls in the UK are discovering Sea Pearls, Natural Reusable Sea Sponge Tampons – the revolutionary new form of sanitary protection for forward thinking intelligent women!

"I was always very sceptical but my Mum gave me a Sea Sponge in an emergency... I can't believe I was so reluctant and didn't just trust her - thought it would be icky but it isn't at all. You just have to get your head round the idea first. I've told all my friends and now we all use them. I love the Sea Pearls" Kayleighanne (16)

"I wasn't keen on my daughter using tampons but realistically I knew I couldn't stop her. Sanitary towels just aren't a practical solution anymore, she needed to feel confident and I wanted to find her something easy to use, without all the health issues. Sea Pearls are ideal for both of us". Cathy (36)

Teenage girls today are more aware of the environment and with mothers now actively seeking a tampon that is healthy, economical, environmental and comfortable to recommend for their daughters; Sea Pearls are becoming the alternative choice.

Sea Pearls are comfortable, soft and textured just like the vaginal wall and because they do not have a drying effect, they won't upset their delicate pH balance. Girls just like Kayleighanne all over the UK are now discovering this new alternative form of sanitary protection.

Sea Pearls™ Natural Sea Sponge Tampons are now available from natural health food stores, beauty salons and your local independent chemist. If you require any further information on the benefits of Sea Pearls™, please visit www.seapearls.co.uk.
